Sprint 1 – Quick meetings
Group 11

1. Scrum meeting 1.1 2022/05/13 13:15

Summary:

A quick meeting was called to discuss any new concerns. The Azure web hosting needed to be created in a different way to avoid billing and all css already implement must be coverted to bootstrap templates.

Task assignment:
Robin assigned to created the Azure Web Page.
Johann, Robin, Tristan L, Tristan B, and Van Niekerk assigned to familiarise themsleves with the bootstrap framework and start implementing on code already written.
General concens were addressed regarding user vs developer stories.

2. Scrum meeting 1.1 2022/05/15 10:00

Summary:

Johann had some trouble with the bootstrap implementation and just needed some guidance.
Robin planning the testing framework for all unit testin.
Tristan L running ideas for server hosting.

Task assignment:
Everyone should start familiarising themselves with Jest for implementation.
